

Activating and Practical Methods throughout the Learning Path

Activating and practical methods in vocational education and training in Vilafranca, Spain

In the frame of the workshop it will be introduced four vocational educational training programmes, those in which participants are young people and practical and innovative methodologies are applied, on one side, and, on the other side, in which are developed the integrated projects, a powerful activity for the empowerment of the students.

Find out more during workshop held on Thursday April 28th at 10:30 am. Workshop will be led by Mercè Marcé Cumplido and Michael Kaselau, Institut d'Aprenentatge Productiu (IDAP).
